

EMBALMING

Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as immediate burial or direct cremation.

Utah law requires embalming or refrigeration if the body is not buried or cremated in twenty-four hours. If a body is being taken out of state, being transported by common carrier, or died from communicable disease, it must be embalmed.
